## Summary

Experienced Senior Software Engineer with a proven history of working in the leisure, travel & tourism industry, games industry, e-commerce industry, construction industry. Skilled in JavaScript, Node.js, Typescript, PHP and Agile Methodologies. Strong engineering professional with a Computer Science education.

## Experience

**prodactive GmbH** Munich
Lead Developer 02/2025 – Present
Lead Developer for “Bautool”, an all-in-one solution for internal resource management in construction companies that connects construction sites, depots and offices. Team of 3.

- Technical planning, further development and customer support (construction materials, dispatching, route planning, projects)
- Web frontend (React, Vite, Vitest, Tailwind, MUI, Leaflet)
- Backend and services (Python, Sanic, Node.js, PostgreSQL), including a custom CDN service and a telematics service
- Mobile app for iOS and Android (Flutter)
- Inspection app: offline-capable, installable web app (PWA) used by bank staff to assess properties (Turborepo monorepo, React, TypeScript, shadcn/ui, Radix UI, TanStack, Vite, Vitest, Tailwind)
- Infrastructure and releases (AWS incl. Lambda, Hetzner, Docker, CircleCI, semantic-release), AI-assisted development

**Freelance work** Munich
03/2025 – Present
Development of a business directory with an administration interface for services such as childcare, senior care and cleaning staff (Node.js, Next.js, React, Tailwind, Docker, Hetzner)

**Freelance work** Munich
12/2024 – 02/2025

- Website for the Oberland veterinary ophthalmology practice
- Website for HPU coach Michaela Hanisch
- New development of the iOS game Coocader (Swift, iOS)

Technologies: Swift, iOS, Node.js, Next.js, React, Tailwind, PHP, Laravel, AWS, Docker

**Zeppelin / z-Lab GmbH** Munich
Senior Software Developer 09/2019 – 11/2024
Development of web applications, microservices, REST APIs, IoT integrations.

Senior Software Developer 05/2013 – 03/2015

- Development of an offline-capable single-page application displaying commodity prices
- Tool for planning routes for cargo ships
- A lottery website

used technologies: SQL, Node.js, Scrum, software development, web services, agile methodologies, microservices, GitFlow, OOP, software architecture, MySQL, full-stack development, back-end web development, CI/CD, PHP, web development, JavaScript, unit tests

**Travian Games** Munich

Technical Lead 05/2011 – 04/2013

Responsible for architecture design, prototyping, analysis, implementation, maintenance, and further development of browser games in the PHP environment.

Duties included creating technical documentation, caching strategies, database management, performance optimization, and interface integration.

Technologies used included Zend Framework, MySQL, PHPUnit, JavaScript, (X)HTML, CSS, and Node.js. Additionally, I provided technical leadership and development to team members.

used technologies: PHP, Node.js, Scrum, software development, SQL, web services, agile methodologies, GitFlow, OOP, software architecture, MySQL, full-stack development, back-end web development, CI/CD, web development, JavaScript, unit tests, RabbitMQ

**Travian Games** Munich

Senior Software Developer 09/2009 – 04/2011

Responsible for the design, prototyping, analysis, implementation, maintenance, and further development of browser games in the PHP environment. Focus on caching, database management, performance optimization, and interface integration. Technologies used included Zend Framework, MySQL, PHPUnit, JavaScript, (X)HTML, and CSS.

used technologies: PHP, Node.js, Scrum, software development, SQL, web services, agile methodologies, GitFlow, OOP, software architecture, MySQL, full-stack development, back-end web development, CI/CD, web development, JavaScript, unit tests, RabbitMQ

**sapodo SE** Dresden

Head Software Developer 02/2008 – 07/2009

Frontend development, web programming and design, independent conceptualization, implementation, maintenance, development of a web application for interactive offer presentations and execution via chat and video streaming in the PHP environment with Flash, JavaScript, (x)Html, CSS, MySQL, etc.

used technologies: PHP, SQL, software development, web services, OOP, full-stack development, back-end web development, PostgreSQL, web development

**STONE Software Solutions GmbH** Zingst

Software Developer 04/2007 – 01/2008

Development, maintenance, support, training, and customer support for the "TMS" application in the server and client environment with 4th Dimension for PC and Mac.

used technologies: SQL, software development, full-stack development, 4th Dimension

**Stone Datensysteme** Zingst

Software Developer 11/2004 – 03/2007

Development, maintenance, support, training, and customer support for the "TMS" application in the server and client environment with 4th Dimension for PC and Mac.

used technologies: SQL, software development, full-stack development, 4th Dimension

**Empire Universe** 2004 – 2006

Freelancer

Further development, maintenance, and support of the browser game Empire Universe 1 (discontinued)

**ISU GmbH** Neubrandenburg

Software Developer 03/2003 – 08/2003

Further development, maintenance, and setup of a cutting profile optimization software in Visual Basic. Programming and controlling of robotic cutting machines.

**ISU GmbH** Neubrandenburg

Freelancer 11/2002 – 02/2003

Development, maintenance, and setup of a cutting profile optimization software in Visual Basic.

**Andreas Hettich GmbH & Co. KG** Tuttlingen

Freelancer 04/2000 – 05/2001

Further development, documentation, care and maintenance of a customer service software in Visual Basic, database replication, interface development to AS400.

**Andreas Hettich GmbH & Co. KG** Tuttlingen

Working Student 10/1999 – 03/2000

Further development, documentation, care and maintenance of a customer service software in Visual Basic, database replication, interface development to AS400.

## Education

**University of Leipzig** 2000 – 2002

Computer Science with Minor in Mathematics

**Merseburg University of Applied Sciences** 1996 – 2000

Computer Science
